LOCAL INTELLIGENCE. REPORT OF THE FINANCIAL AGENT OF THE AID SOCIETY OF THE DISTRICT OF COLUMBIA. FOR THE QUARTER ENDING OCTOBER 27TH, 1854 A work of educational and moral reform was commenced in this city last fall, in concurrence with the views of many of the clergy and laity of the different Protestant denominations of christians and other citizens, and was attended with encouraging success. The Society was organized on the 27th of April last A missionary, matron, financial agent and 13 teachers were elected, who are believed to possess sufficient devotion to the cause to meet the sacrifices and responsibilities demanded in improving the condition of the idle, ignorant, vicious, and the deserving poor. A board of five auditors were elected from the elergy, and the trustees consist of one from the laity of each denomination in the city. The auditors and trustees are men of standing, influence and responsibility. The contracts, purchases, and disbursements of the financial agent are made subject to the ap proval of the auditors, and his accounts are audited quarterly, published, and left in their hands for the examination and satisfaction of

Three Sunday-schools have been added to our number during the past quarter, making six in all, with 237 scholars. We have also two evening schools, with 53 scholars, and a to get as many children into the district schools as possible, wishing to obviate the necessity of sustaining day schools for them We have taken measures to increase our Sunday and evening schools, having received pressing calls from a number of places. Many children can be found in various parts of the city and District to make up schools, who can and ought to be brought in. We have engaged several faithful teachers for evening schools, who are ready to begin as soon as they can be assured of a reasonable compersation, and these can be relied on to sustain the Sunday-schools regularly and efficiently Are not all such laborers "worthy of their hire!"

We have not yet obtained a building for an asylum for reformed females and their childien; but a gradual progress has been made in preparing the public mind and convincing some "who are ready to perish," that there is hope in their case if they will but put forth their strength.

Our efforts to provide homes and other comforts for the deserving poor have also a favorable prospect. We hope, ere long, to obtain a building, into which they can be welcomed to a home, and to its comforts and sympathies, and where they will learn to appreciate the religion that leads its possessors "to do to others as they would that others should do to them." We have a depository, at the corner of Pennsylvania avenue and Tenth street east, for clething that may be given for their use.

The work is common ground for all, and it would seem that all who decline to aid it might see that their interests would be promoted, and their minds made more comfortable, by a participation in it. But a small portion of time has been al

lowed by other duties for raising funds The amount raised within the quarter, including each and each subscriptions, the publica ion of the former report in the city papers and copies for distribution, books, maps, seats, and wood, is \$154 88. The disbursements for the quarter amount to \$20 48 Ladies and gentlemen, the cause is before

you. It is a cause in which all have an inhearts and judgment of all-so that the good approve it, the bad cannot oppose it openly without implicating themselves, and sectariancause to languish for want of sustenance, and rapidly increasing population of our city. with it all the hopes that have prompted the resolutions of amendment which have been formed? Oh, no, you will not-you cannot! We have a higher opinion of you, and we trust be reduced. N. B. NORTHBOP, Financial Agent.

We have looked over the accounts of Mr. Northrop as agent for the Aid Society, and find them correct We also would recommen i spectfully ask of the various papers of Washington to give it a gratuitous insertion.

J. READ ECKARD. E. P. PHELPS, GRO. W. SAMSON,

NEWSPAPERS IN WASHINGTON -The Baltimore American of this morning says : "There are published in the city of Washington, six daily newspapers -- three of them in the morning, and the others in the afterneon, with a combined circulation of propably from eight to ten thousand copies. In adpapers circulate extensively in Washington, being delivered at the doors of the subscribers by breakfast time. Thus, in effect, the city has eight daily newspapers beside a semiweekly and weekly publication."

The people of Washington are truly a reading community. In addition to the Washington and Baltimore papers, an immense number of papers are taken here from all parts of in our streets, in large numbers, as freely, in proportion to the population, as in the streets of New York. Our friend of the American is mistaken about the circulation of Washington compared, the circulation of Washington papers exceed those of Baltimore. The Star,

INTERESTING SERVICES.—The revival of Thirteenth street Baptist Church still continues to increase in interest and benefit to was committed for trial. those who are seeking truth. The efforts of the pastor, Rev. Dr. T. C. Teasdale, have been attended with much success, and have fully sustained his high reputation as a true and this city. Last night the anxious seats were able preacher of Jesus.

The meetings is to be continued during the this denomination of immersion.

We must not neglect to say that this church most needed is Christian uniqy.

A DISTRESSING ACCIDENT. -Yesterday afternoon a little child, of some eight years of YEARS STANDING, CURED IN ONE MONTH, BY BURage, named Sarah Ellison, an inmate of the BOW'S ELIXIE VITE. family of Mrs. Wilson, at the corner of 11th street and Pa. avenue, was most dreadfully scalded by running suddenly against the arm of a negro girl who was dipping hot water from a cauldren; the contents of the dipper in the girl s hands fell upon the breast and stomach of the child Dr. Hall was promptly called in, and administered all the relief that medical science sould afford. The state of the unfortunate child is very critical indeed,

we hear, though hopes of her recovery are entertained. CHICKEN STRALING .- This morning, an old colored woman named Lucy Paine was arrested in the market for offering a lot of chickens for sale, which had been stolen from the hen house of Mrs. Perkins, near the Eastern branch. She was taken into the guard house, where she told by what means she got them Mrs. Perkins took her chickens home. and Lucy gave security to appear for trial on

Tuesday next. Another Incendiary Arrested .- Another person, named Wm. Streeks, was arrested yesterday on the charge of being conserned in the neendiary acts, when Douglass's ice house and other places in the First Ward were destroyed He had a final examination yesterday, and was committed to jail for trial at Court in four cases.

Wood. -The offer of Lient. Hunter, U. S. N to dispose of the large quantity of wood already cut upon his upper farm, about two miles from the Long Bridge, on the Virginia side, affords a fair opportunity for those of our fellow-citizens who have teams of their own or who can procure the use of teams, to lay in their winter's supply of fuel at low rates. The road to the farm is now in capital condition; so two or three trips there and back may be made per diem.

SELDEN, WITHERS & Co.-The run on the Exchange Bank of these gentlemen by note holders was, this morning, merely nominal, it having been found that they promptly redeemed every dollar of their issue pre-ented since Monday morning last, when the rush began. We presume that on Monday morning next they will commence regularly repaying their depositors, inasmuch as by that time they will probably have made arrangements enabling them so to do. Nothing could be more disastreus to the State of Virginia at this time than a suspension on their part. They are the financial agents of that State, and their suspension would necessarily involve a suspension of the work on all the internal improvements in progress in Virginia. The State herself being interested heavily in them; advancing to them large sums of mo-ney obtained through Seiden, Withers & Co, who are charged with the duty of selling the State's stocks to realise the funds so advanced or paid. With the suspension of these works must come a still greater sweeping deprecia-tion of the Virginia State stocks in question. That, in turn, can hardly fail to cause an immediate run on all the stock secured banks of the State. We do not know how many of them are able to redeem all their issues on the instant without relying on their hypothecated stock Such a run on these banks must react on the old banks of the State quite as disastrously. We sincerely believe that there are not sounder banks in the Union than those of Virginia, one and all, so far as we know their condition Though thus based on stable foundations, day school with 19. We are making an effort and managed as a general thing with most commendable prudence, such consequences as we depict above to nearly all of them, as well as to the progressing internal improvements, could hardly fail to result from the stoppage of the house of Selden, Withers & Co.

IN A PROSPEROUS CONDITION .- "Meroury," in his letter of this morning, says: "At Georgetown, no failure has occurred.

No panic exists. Her Farmers' and Mechanics' Bank, and the Bank of Commerce, have honored the paper of their merchants with commendable liberality. Handsome improvements are progressing in every part of the town. There are ne idlers about the cornerno suffering perceptible. SOMETHING NEW -The citizens of Washington and vicinity are invited to see, free of all charge, the most rare spectacle that has ever been offered in this city, namely, the a young plant, which is now in full bloom in the gardens of David A. Hall, Esq., Fifth st., five squares north of the City Hall. It has been grown and produced in the short space of a few months, by the skillful management of the gardene., M. Griffiths, and the proprienowned plant that this country can, by artificial means, produce. It will continue bloom ing for some time, so that all will have an opwater lilly.

THE MARKET. - Centre Market this morning looked well, on account of the large supply, and a great number of purchasers crowdel the place to obtain their provisions for the coming days

The hay market is crowded with wagons, &c., and purchasers of that article are as terest, and which commends itself to the busy as the custo ners of the farmers and butchers.

The sidewalk of the Avenue is crowded with buyers and sellers, and produce, though high, ism has not taken a step against it without a sells rapidly. A new and more capacious reaction upon itself Will you suffer such a market would better answer for the large and

SERIOUS CHARGE.-On Thursday evening last a case was tried before Justice Morsell in which a man named Bigler, a widower, was fifty yards of its junction with Twelfth street and charged by a Miss Boreman with a rape upon Pa avenue. The building is of two stories. Mr. B. Burrow—Dear Sir—I am under great obligations to you for effecting a cure of that dreadful disease, Scrofula, by your preparation, called Elixir Vitze. The disease had baffled the most skillful Physicians, and I had taken at least one hundred bottles of Sarsaparilla, &c., without any effect. I was in the most deplorable condition, part of my neck uicerated to such an extent as to leave my wind-pipe exposed; indeed, life seemed to me a burden. I had given over the idea of ever finding relief, until recommended by one who had been similarly affected, and was cured by your medicine. I was induced to take your preparation, and although I had been afflicted over twelve years, yet in the short space of thirty days I was entirely cured. I am now in good health and have been ever since. The cure was through a miracle. Yours, very respectfully,
